HIGHLY ESTEEMED MEDICINES.

FOSTER'S EGYPTIAN BALM OF LIFE.

OR NATURE'S GRAND AND GENIAL AUXILIARY.

SPECIFIC for Consumption, Great Bilious Debility, Aged and Rotted Coughs, Flatulency, Indigestion, and Bilious Disorders, Constipation and Diarrhea, Scourie and Scrofulous Affections and Female Complaints.

The Egyptian Balm of Life being an invaluable Family Medicine, should not be neglected in the Spring and Fall by any member of a family, as a Grand Auxiliary to the efforts of nature, in throwing off superfluous humors, generated in the winter and summer months; thus preventing us well as otherwise curing the above distressing maladies, and giving a healthy tone and proper action to all the grand operations of the system.

This Medicine has long sustained an unrivalled character for excellence in the private practice of many eminent practitioners in Europe, yet remaining at the same time undivulged in the possession of the individual of whom it has been purchased.

It is now exerting a salutary influence on this side of the Atlantic, and it is recommended to those who may be laboring under any of the diseases for which it is designed as a specific, and also as a preventive of disease, until its appearance.

For a more particular description of the above medicine we would refer to the envelope accompanying each bottle.

Many valuable certificates might be produced of the benefit received therefrom. Hundreds in the State of Maine, as well as in other States, can testify to its superior efficacy, but the proprietor is willing for the public to judge for themselves by trial. A few names however, are referred to in the envelope accompanying each bottle.

Foster's Celebrated Nerve Ointment.

For the cure of Sprains, Bruises, Cramps, Rheumatism, Contracted Muscles, Sore Throat, Stiff Neck, Pain in the Breast, Back or Joints, Throat Distress, the Piles, &c.

The general testimony concerning this Ointment, from those who have proved its merits, is, that it is too valuable a medicine to be neglected. And indeed we might fill a book of an hundred pages in giving incidents of its happy effects on the suffering.

N. B. The above Medicines are prepared only by W. A. Greenough, Portsmouth, N. H., and sold wholesale and retail by him.

Also, sold wholesale and retail by G. W. LADD, Bangor, also by Eld. C. R. R. & Co., Bangor, Newburg, Winthrop, Freet, Lincoln, S. Long, Palmer, H. G. O. Washburn & Co., Belfast; Gilmore & Gilford, Prospect; Luther Mudgett, North Prospect; Robert Treat and J. B. Chick, Frankfort; Arty & Nourse, Hampden; Richardson & Kennedy, Old Town; E. P. Butler & Co., Orono.

October 25. 40tw&3awd19

BUCKSPORT HIGH SCHOOL, AND CLASSICAL INSTITUTE.

THIS School, now in operation, will continue permanently under the care of JOHN B. L. SOULE, A. B., an experienced and successful instructor.

It will be the purpose of the Principal, and of those who may be connected with him, to maintain a school of the first rank—where, by means of a thorough and progressive course of study, uniform and judicious discipline, and a careful vigilance over the intellectual and moral habits of the pupils, the young of both sexes may enjoy the greatest facilities for acquiring a sound, practical education.

Thorough instruction will be given to young gentlemen preparing for college, fitting them to enter the Freshman, or advanced classes.

Terms of Tuition. For Common Studies, \$4.00; For Higher Branches and Languages, \$6.00.

Board may be procured on reasonable terms;—and permanent arrangements will soon be made, by which pupils from abroad will be accommodated at very favorable charges.

The Fall Term will commence September 11th, and continue eleven weeks.

CAUTION.

THE Subscriber thinks this method to caution Sheet Iron workers and others in Penobscot County, against manufacturing or vending any of the so-called EPPY'S PATENT CONICAL VENTILATOR AND SMOKE BLOWER, and the public also against purchasing of any other person, excepting the subscriber or NATHANIEL JOHNSON, of Bangor, I having sold to him one-half in common of said right to manufacture and vend.

ALBERT NOYES.

August 15, 1893—wtf

CANARY SEED,

ALWAYS for sale by G. W. LADD.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Noceross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Bennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of MESSRS. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

SAMUEL L. VALENTINE.

Bangor, July 11, 1893—d and wtf

LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND.

PEARSON'S MILLS,.....BANGOR.

THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT AND PICTURE FRAMES of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at as low a price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE,

by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

New frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

DOCT. E. PRATT'S IMPROVED ARTIFICIAL NIPPLE.

TO the Medical Faculty it is presented for demonstration as a desideratum, when properly applied, in the following cases, viz:—where the nipple is inverted; where there is excretion in its irritable form; or even where it has completely sloughed. Perhaps the most extraordinary circumstance pertaining to its operation, is that it operates with perfect ease to the Mother, and perfect facility to the Child. It will be seen at a glance that this article is far superior to any other article of the kind which has yet been offered to the public.

FASHIONABLE HATS.

JUST received a few cases fine Mole Skin and

Nutria HATS at

June 1 FLAGG'S.

PROSPECTUS OF THE MECHANICS' RECORD.

By a vote of the late STATE CONVENTION OF MECHANICS, a Committee was authorized to issue a Prospectus for the publication, in the city of Bangor, of a monthly periodical devoted to the interest of the Mechanics of the State, and to be the organ of communication between the different Associations already formed, and the means of increasing their numbers and extending their influence.

Agreeably to their instructions, the Committee now propose to their brethren, the Mechanics of Maine, the publication of a monthly periodical earnestly devoted to their interests—to all that concerns their social relations, their scientific attainments, and their progress in self-cultivation; a publication heartily engaged in disseminating a correct public sentiment regarding useful labor—in enlarging the boundaries of science, aiding in the improvement of the arts and in spreading useful information upon all subjects connected with education and the arts, as well as an organ of communication between the Mechanic Associations in the State.

It is confidently expected that the matter for each number will be furnished by the earnest thinkers in each of the Associations in the State and by men who are deeply interested in the onward progress of humanity, by means of a better and a wider spread intelligence among the people, and a broader extension of physical science and the mechanic arts.

The Record will be issued in a pamphlet form of convenient size for binding, upon good paper and a clear type, each number to contain as many pages as the amount of the subscription at the time of its publication will warrant.

TERMS. The Record will be furnished to each subscriber for one dollar a year in advance, and no subscriptions will be received without the pay.

Delegates to the State Convention, the officers of the several Mechanic Associations and mechanics generally are requested to aid in procuring subscribers and remitting the money, that the experiment so honorable to them, if successful, and so useful to the community may not fail for the want of their co-operation and influence. It is expected, also, that each Association will take immediate measures to occupy a portion of the Record in those matters deemed of the greatest interest in advancing the cause which the mechanics in this State, for themselves, have so unanimously undertaken.

* * * The first number will be put to press as soon as notice is received of a sufficient subscription to sustain the publication.

JAMES R. MACOMBER,

ABNER R. HOLLOWELL,

OLIVER S. BEALE.

BANGOR, August 23, 1893.

9 MAIN STREET—C

</

FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY.

SEE FIRST PAGE.

A correspondent in the Gazette, unquestionably thinks himself very cunning in the mode he has adopted of appealing to the old prejudices of the two political parties, hoping thereby to prevent those parties from coming to any understanding about the election of Representatives, and thus causing the people to be frequently called upon to attend the polls. The leaders of the Gazette party, say that keeping the representative question open, keeps their folks alive, and is as good to them as an agent employed in the city. If the Gazette writers have no higher motives than an appeal to old prejudices, they might as well shut up shop; and as for either of the existing political parties so to conduct as to aid the Gazette party, we think would be more foolish than anything else they could engage in.

With regard to Representatives, there need be no fear whatever that a fair whig vote will secure the election of the Whig candidates. Many of the opposition have no objection to this, but would much prefer it to any amalgamation ticket with new men. It is to be hoped therefore that an effort will be made at the next trial to get out a full whig vote in each ward, and have the matter quietly and fairly settled.

There has been some talk about what is called a military ticket, but such a ticket cannot succeed, and we trust those who have talked about it will abandon it as the election of the whig candidates will do more to promote right legislative action in their behalf, than forty abortive attempts at an election.

A few more articles in the Gazette like that of Saturday, will put affairs in good order for an election on Saturday next.

We are requested to state that the annual Association of the Penobscot Universalists Societies, will be held at Oldtown, on Wednesday and Thursday next. Ministers, Delegates and friends attending the Association are requested to call on Messrs. Stow & Blake where a Committee will be in readiness to receive them. An extra train of Cars will leave this city for Oldtown, on Wednesday at half past nine o'clock A. M. at a reduced fare. Tickets may be had by calling on Mr. Joseph N. Downe or M. S. Jackson & Co.

We learn from the Transcript that the committee who were empowered to select an artist for the statue of the late lamented Dr. Bowditch, for which subscriptions were taken some time since, have given the execution of that work to that eminent artist Ball Hughes, who will proceed immediately with preparations for the work. The statue is to be of bronze, and is to be placed in Mount Auburn.

We learn that the alarm of fire on Friday evening mentioned in our paper of Saturday was occasioned by a fire on board the Schooner Harriet T. Hinkley at Brewer. The galley, fore-sail, fore boom and fore gaff were destroyed by fire from the cook's stove about one hundred and fifty dollars in value was consumed. Our fire engines were out in good season and proceeded towards the fire until notified that their services would not be needed.

We are renewedly indebted to Gilman & Co's Express for papers on Saturday forenoon about thirty hours in advance of the mail. Also to Jerome's Express for the same.

The mail bag containing the newspapers for this city by some mishap did not arrive on Saturday evening: nor did the papers due on Saturday arrive last evening.

Our citizens were on Saturday evening alarmed by the cry of fire, occasioned as we learn by two bad boys recklessly ringing the Methodist Church bell.

The Maine Farmer credits one of our articles to the Bangor Gazette. That is worse than omitting to give any credit.

There will be a meeting of the city Council this afternoon at two o'clock.

Repeal Convention.

The first meeting of the "National Repeal Convention," at New York, took place on Wednesday at the Tabernacle in Broadway. About 200 persons were present. Behind the chair were several banners, with appropriate devices and mottoes. In the centre was a liberty cap and banner, on which was inscribed, "Justice to Ireland." On one side hung a banner, inscribed, in the words of O'Connell, "He who commits a crime strengthens the Enemy of his country."

The meeting was organized by B. O'Connor, Secretary of the United Irish Repeal Association of that city, who proceeded to call over the names of the delegates from the different States. The names of the delegates being called over, and about seventy answering, Ganesvoort Melville, Esq. moved that the Hon. John McKeon be appointed President pro tem. which was adopted unanimously. Mr. McKeon accordingly took the chair. Mr. O'Connor who was appointed Secretary pro tem. read the report of the number of Associations from each State, say 47, of which there are from Maine 1, Massachusetts 8, Rhode Island 2, Connecticut 3, New York 16, Pennsylvania 3, Maryland 1, District Columbia 1, North Carolina 1, Georgia 1, Wisconsin 1.

A resolution was offered by Charles Connor, Esq., that a Committee of two from each delegation be appointed to nominate a President, thirteen Vice Presidents, and five Secretaries, to act during the Convention. Robert Tyler was chosen President.

Prepare for the Contest!

The undersigned, believing the time has fully arrived when every Whig throughout the land should buckle on his armor for the great contest of 1844, feeling a deep interest in the honor and prosperity of our country, and the perpetuity of our free institutions, confiding in the integrity and patriotism of that great Republican Statesman of the West, HENRY CLAY, whose long public life has been devoted to the best interest of his country, who has been unwavering in his attachment to the true American policy of Protection to our own Industry, and desiring his elevation to the Presidency, recommend that the Whigs of Augusta, form an Association for the purpose of disseminating correct political principles, to be called the STATE CENTRAL CLAY CLUB, and that they be requested to meet at the new Court House on Saturday Evening, Oct. 14th, for the purpose of organizing said Association.

J. P. PHILROOK

[The above would, no doubt, have been signed by hundreds of the citizens of this town had an opportunity been presented; but a few, the first at hand, were deemed enough to "set the ball in motion."]

The Autocrat of Russia does not neglect the encouragement of science—especially, it appears, when it offers practical advantages to his possessions. Mr. Murchison has been engaged this spring and summer in an examination of Poland and the Carpathian mountains, in order to the publication of a work on the geology of Russia. On his return to England, he found that the Emperor, who had already conferred upon him the decoration of St. Anne in diamonds, had further acknowledged his services to Russian geology by two handsome presents. One is a colossal vase, of Hyaline quartz (Aventurine) upon a pedestal of porphyry; both materials extracted from the Altaic mountains, and wrought at Kolyvan. The vase bears the following legend, inscribed by means of galvanism on the base:—"Gratia Imperatoris totius Russiæ Roderici Murchison, geologiæ Russiæ exploratori, 1843." The other present is a plateau of watered damask steel, wrought at Statut in the Ural mountains, with gold ornaments in relief, representing the chief mining operations of those parts, and bearing, in Russian, this inscription—"To the Geologist Murchison, in testimony of its peculiar esteem, the Administration of the Mines of Russia."

BY THE MAILS.

Destructive Fire in Danvers.

We learn from an extra of the Salem Gazette, from a copy of which we are indebted to Mr. Savory's Express, that during the high wind from the westward, about 12 o'clock last night, a fire broke out in the most central and important position in the South Parish of Danvers, viz., the spacious square occupied by the South Meeting House, the Hotels of Messrs. Goodridge and Dustin, the Post Office, the Warren Bank, &c. &c. It commenced in Wm Berry's wheelwright's shop, which was destroyed—thence communicated to John Dodge's blacksmith's shop—a cabinet maker's shop—a house occupied by Mrs. Very—which were all destroyed; thence to the South Meeting House, just built for the use of the Rev. Mr. Field's Orthodox Congregational Society. The building was not quite finished, and was insured, at the Manufacturers' Office in Boston, for \$5,000. Thence to Mr. Dane's shoe factory, Mr. Morrison's shoe factory, Messrs. Southwick & Ferrin's grocery store, and to Mr. Goodridge's Essex Coffee House, a handsome brick edifice, believed to be the most spacious hotel in the county. The building is said to be insured for \$5,000, a sum much below its cost. It also communicated to Charles Lambert's grocery store, Mr. Healy Morse's house and stable, the large house occupied by Messrs. Joseph Fairfield and Nathaniel Symonds, and the house occupied by the Misses Foster—all of which was destroyed. A number of buildings in the vicinity were injured—among them a house occupied by Col. Caleb Lowe; Allen's buildings, in which are the Bank, Post Office, &c., also caught several times. The Unitarian Meeting House (Rev. Mr. Bigelow's) was repeatedly on fire, and was with great difficulty saved from the flames. The Gazette says, "during the violence of the wind, and while the fire seemed likely to break out at the most unforeseen points, anxiety and alarm spread far and wide. Furniture and goods were removed, and families of children were sent away from their dwellings. And although the danger greatly diminished with the going down of the wind, yet could not be considered as subdued, until about day-break."

We have no estimate of the loss of property by this fire—it must have been considerable. The Salem Register, says that the buildings burned which belonged to Mr. Goodridge, cost not less than \$16,000—and were insured for 6 or \$7000. It is not known how the fire originated.

From Texas.

Late advices from Galveston were received at New Orleans on the 11th. Colonels Warfield and Snively had arrived at Washington, and promised to publish a full report of their expeditions.

The British sloop of war Seylla had arrived from Vera Cruz. She brought despatches, and a report that all the Texan prisoners were to be liberated.

Two of the prisoners arrived at New Orleans on the 11th, having escaped from Tacubaya. Their names, Samuel H. Walker and Mr. Dalrymple. Three others, Wm. Copeland, D. H. Gattis and James C. Wilson, had also escaped. Nine of the captives had died in prison.

Some rascals in Somersworth N. H. a few nights since placed a keg of powder under the wing of the house of Mr. John B. Wood and applied to it a slow match. In the dead hour of night the powder ignited and a terrible explosion took place, which nearly rained the house but fortunately the family escaped uninjured with the exception of one of the children injured by broken glass.

Peter McCabe, one of the unfortunate men injured by the late accident on the Susquehanna Railroad, died on Saturday morning. The recovery of two others Messrs. Cooper and Pugh, is very doubtful.

Some freight cars from Dover, were smashed to pieces on the Lowell Railroad, on Thursday near the Woburn watering place, caused by the wheel of one of the cars coming off.

Miss Phoebe Hanson, living upon a farm in Rochester, N. H., was murdered in her own house on Tuesday last, by a man named Andrew Howard, who had frequently worked upon the farm, and who, after his arrest, confessed that his object was to obtain her money, as she was considered rich. She was decoyed from the house, when Howard and his brother entered, armed with bullet, and shot her in the head; the ball first passing through her hand. The two Howards, Andrew and Emery, have been committed to await their trial—one as principal and the other as accessory. We gather these particulars from a long account in the Boston Mail.

An explosion heard at Wilmington, Del., it is supposed the Powder Mills of Dupont had blown up.

A great Flour Mill near Baltimore, owned by Gambrill Carroll & Co., with a large quantity of flour and grain has been consumed by fire.

The train of cars from Portland to Boston on Wednesday evening ran off the track and was detained two or three hours—nobody injured.

From St. Domingo. The brig Gardner, Cotts, arrived from St. Domingo at N. York. The Captain states that a Hayes brig-of-war had sailed about the 25th of August for Port au Prince, having on board fifteen Spanish Creole prisoners going thither for trial, having been detected in a conspiracy against the Government. It was their intention, had their plans succeeded, to have massacred all the wealthy portion of the inhabitants, and then to have hoisted the Tri-Color Flag.

DIED. In this city, 30, Susan H. wife of Wm. C. Robinson, aged 25 years. Portland papers please copy.

WILLIAMS & PRINCE,

Having taken the large and commodious Store No. 45 West Market Place, formerly occupied by Messrs. Pillsbury & Safford would give notice that they are prepared to attend to the general AUCTION AND COMMISSION BUSINESS in all its branches—and they trust by integrity and prompt attention to business to win a liberal share of patronage.

Prompt personal attention given to all business entrusted to them. Mr. Prince having had five years experience as an Auctioneer in Boston, they trust that all GOODS consigned them for public or private sale, will be sold to the satisfaction of the consigner.

Constantly on hand and for sale on the most reasonable terms at private sale—Nails,

1
